What Is Accredible?

[Accredible](#) is a platform for creating digital certificates and badges. Accredible has issued millions of digital badges for professional associations around the world, for recognising career certifications and achievements.

What are Digital Badges and Certificates?

The digital badge and certificate you will receive from Accredible is a way for you to share and validate your achievement. The certification it represents can easily be verified by viewers at any time, and the online view of the badge will communicate its up-to-date status to anyone attempting to verify it. When you share your badge, viewers can immediately see your membership and achievement/s.

Digital badges allow you to stand out as a certified expert in our industry, and give you verified credibility.
